

TRANSPORTATION AND DISTRIBUTION APPROVAL CAVINESS BEEF PACKERS Est#675 and Est#7282

As part of our BRC requirements, Caviness Beef Packers Est#675 and Est# 7282 requires the following policy on transit/storage to be complied with:

- All finished goods must be protected from contamination during transit and storage with external packaging.
- All vehicles used should be kept clean to minimize the risk of contamination.
- The product must not be exposed to any risk of contamination, such as foreign objects and odors.
- All finished goods must be maintained under a strict cold chain management by monitoring of temperature control devices.
- All trailer seals must remain intact and only be removed by entity taking ownership of product.
- In the event of vehicle breakdown, accident, or refrigeration failure both the receiver and Caviness dispatch will be notified.
- Vehicle drivers are not allowed inside our processing facility without being trained, signed off, and adhering to our company GMP Policy.

Please note all vehicles will be inspected on arrival and rejected if a risk of contamination is suspected.
