

MASTER CATTLE TRANSPORTER GUIDE ACKNOWLEDGEMENT CAVINESS BEEF PACKERS Est#675

As part of our Animal Handling requirements Caviness Beef Packers Est#675 requires that the principles set forth in BQA's Master Cattle Transporter Guide are adhered for cattle delivered to our facility.

Shipments of cattle should be made only with Livestock Haulers who have been provided a copy of the Master Cattle Transporter Guide, or already have one on file, and that acknowledge their intent to follow the principles in the Master Transporter Guide.

Furthermore, Caviness Beef Packers encourages that at a minimum one key member from each Trucking Firm be BQA Transportation certified, with a copy of the certificate provided to us. Steps for certification can be found on <https://bqatransportation.beeflearningcenter.org/>

I acknowledge our Trucking Firm has a Master Transporter Guide, have read it and agree to follow its principles.
